Tube End Finishing Machines

RA 2

SKU : 130129

This practical helper for any workshop simplifies assembly and welding of tubes at a 90° angle. It also allows machining of different tube diameters with one device. An eccentric shaft ensures that only minimal effort is needed.

- Horizontal and vertical use
- For dual and corner unions
- Quick and efficient

TECHNICAL SPECS

DETAILS

Diameter	49.5 mm - 61.5 mm
