

Circular Sawing Machines

KKS 315 T

SKU : 102120

Manual circular cold saws KKS T come equipped with everything you need for machining smaller tubes and profiles. You can cut precise miters with all models. Vises on the model KKS T315/350 are self-centering for optimal cutting. Models with 9.8/10.8" saw blades are equipped with a quick-action clamping vise.

- High-precision angle cuts
- Rigid vise
- Rigid machine base included
- Built-in coolant system

TECHNICAL SPECS

WORKING AREA

Max. saw blade diameter	12 in
Shaft diameter	1.6 in
Speed	18/36 rpm
Width of vise	6 in
Working height	38 in

DRIVE CAPACITY

Main motor rating	0,75 / 1,3 Hp
-------------------	---------------

MEASURES AND WEIGHTS

Overall dimensions (length x width x height)	37 in x 23 in x 71 in
Weight	499 lbs

CUTTING CAPACITIES

Cutting capacity 0° (round)	4 in
Cutting capacity 0° (square)	4 in
Cutting capacity 0° (flat) (length x width)	6 in x 4 in
Cutting capacity 45° (round) L	4 in
Cutting capacity 45° (square) L	4 in
Cutting capacity 45° (round) R	4 in
Cutting capacity 45° (flat) L (length x width)	4 in x 4 in
Cutting capacity 45° (square) R	4 in
Cutting capacity 45° (flat) R (length x width)	4 in x 4 in

KKS 315 T

Dual vise (KKS 315 / 350 T)

PRODUCT DETAILS

- Easy operation, rugged design, and precise angular cuts make this circular cold saw a “must-have” basic for any workshop
- The entire series is ideally suited for cutting solid materials, tubes, and sections of steel, iron, and light metals
- The operator guides the cut via a hand-lever, where the ON/OFF switch is integrated ergonomically into the hand grip
- The models KKS 250 and 275 T provide a rigid vise with quick-action clamping feature and are ideal for small batch productions
- KKS 315 T / KKS 350 T feature a self-centering dual vise that hold the workpiece firmly on both sides of the saw blade
- The miter can be adjusted up to +/- 45 degrees by rotating the gear head
- The selected angle adjustment is fixated via a central clamping lever that is integrated into the machine frame
- All models have high-torque motors, and the KKS 315 and 350 T also have reversible poles and 2 speeds
- A large idler gear runs in an oil bath for low maintenance and minimal wear
- The rugged machine base allows a space-saving machine setup
- An integrated coolant system is part of the standard equipment

STANDARD EQUIPMENT

Self-centering vise
Base
Coolant system
1 saw blade
Linear stop
