

SKU : 112825

The handy drill bit grinding devices of the KSM series impress with their simple operation and are ideal for precise and cost-effective grinding of double-edged twist drill bits. Even without prior knowledge, the work is done cleanly, quickly and precisely. The devices are ideal for any tool crib and include both collets and a high-quality grinding wheel.

- Clearance angle and point angle grinding
- Grinding wheels included
- Common collets included

TECHNICAL SPECS

WORKING AREA

Grinding diameter	2 mm - 13 mm
Grinding wheel material	CBN

DRIVE CAPACITY

Motor rating main drive	0.18 kW
Supply voltage	220 V

MEASURES AND WEIGHTS

Overall dimensions (length x width x height)	0.4 m x 0.22 m x 0.29 m
Weight	22 kg

PRODUCT DETAILS

- Chamfering of relief angle (rear of drill bit), chamfering of point angle
- Point grinding
- Free grinding of drill bit center
- Optimum grinding path to provide controlled chip removal at the drill
