

SKU : 130602

The fastest method for preparing sheet metal profiles and plates for further processing. With these shears 90° angular corner cuts can be machined quickly. This time-saving and precise process simplifies subsequent machining on a bending machine.

- Support table with adjustable stops
- Workbench design
- Large cutting capacities

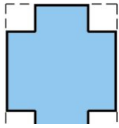

TECHNICAL SPECS

WORKING AREA

Pressure force	4 t
Plate thickness (max.)	1.6 mm
Punching	152 mm x 152 mm
Stroke	20 mm
Angle 90°	152 mm x 152 mm

MEASURES AND WEIGHTS

Overall dimensions (length x width x height)	0.64 m x 0.54 m x 0.57 m
Weight	95 kg

PRODUCT DETAILS

- Easy notching with 90° tools
- Various notching shapes possible
- 2 adjustable stops

STANDARD EQUIPMENT

Operator manual
Stops
